Backend

Python 3 Java Django / DRF FastAPI Flask Frappe

Frontend

React TypeScript JavaScript Vite Tailwind CSS Apache ECharts

Data & Storage

PostgreSQL / TimescaleDB MySQL / MariaDB Oracle MongoDB Redis SQL pandas Excel / ETL

openpyxl / XlsxWriter

APIs & Infrastructure

REST API WebSocket API gRPC Kafka Celery RabbitMQ Linux Nginx Docker CI/CD

WORK EXPERIENCE

Software Developer

March 2023 - Present

JSC Ukrposhta | Kyiv, Ukraine

- Designed backend flows for e-commerce orders and customer lifecycle with IT-Enterprise ERP API integrations.
- Built a Java REST extension for an existing .jar-based Software cash register (PRRO) component used for Posmark online-order fiscalization.
- Implemented event-driven fiscalization services using Kafka, Celery, Redis, and PostgreSQL; handled Linux deployment, Nginx balancing, and CI/CD delivery.

Software Engineer

October 2019 - March 2023

Fintech Startup | Kyiv, Ukraine

- Built automated trading systems on Binance REST/WebSocket APIs using asyncio, SQLAlchemy, pandas, and numpy.
- Developed Telegram alert automation and maintained VPS-hosted services with production Linux administration.

PROJECTS

E-commerce & Order Management

Designed backend systems supporting full order and customer lifecycle for national-scale e-commerce platforms, including ERP integrations and shipment automation.

Fiscalization & Payment Orchestration

Implemented online/offline fiscalization and receipt lifecycle processing via PRRO services with event-driven pipelines on Kafka, Celery, Redis, and PostgreSQL.

Logistics & Warehouse Systems

Designed WMS and pickup/drop-off management services to automate inventory accounting, cargo lifecycle tracking, and customer verification workflows.

Reportarium — Financial Reporting & Analytics

Built a full-stack platform for PJSC Ukrnafta that imports, validates, normalizes, and versions evolving Excel financial reports, with interactive ECharts dashboards for cash flow, receivables, promissory notes, and inventory.

EDUCATION

Bachelor Degree in International Economic Relations

2009-2013

Institute of International Relations (IIR), Taras Shevchenko State University | Kyiv, Ukraine

MBA, Global Banking and Finance

2013-2015

European University Business School | Geneva, Switzerland
